

Quarter 3 October to December 2016

Headlines

The current forecast of net expenditure amounts to £4,466k compared to a revised budget of £7,640k a variance of £3,174k (41.55%)

The variance is made up of an underspend of £29k, which has now been returned, and slippage to future years of £2,545. Following no slippage reported in quarter one, slippage of £2,487 in quarter two the additional slippage now reported for quarter three is £58k. Total slippage is broken down as follows:

* For slippage on a scheme by scheme basis please see Table 1 over the page

2016/17 Current Position

* For a scheme by scheme analysis please see Table 2 over the page

ICT t d Z (E} o o} μ š } (Z (o A E p a r n e s t } d u r i n g q u a r t e r 3 and this supports the expenditure £511k on the Mobile and digital project. Work with Durham to develop the Red Sigma intelligence system is continuing but the recruitment of an ICT developer by Durham has slipped. There is a £58k contribution from Cumbria for this has been slipped into 2017/18 along with the associated cost financing. A business case to seek firm approval to replace the Wide Access Network (WAN) has been submitted. The cost of the ground works associated with this replacement were much lower than expected and £476k of the budget has now been returned.

Fleet t Actual expenditure to date of £43k on the fleet schemes when compared to the approved budget of £797k is very low, however, the entire budget is committed. The fleet department are working with the suppliers very closely and at this time, the delivery schedules show that all vehicles will be received this financial year. The delivery dates are very close to the 8th March and there is a possible risk that some of these will at a later date slip in to 2017/18.

Estates t Work is continuing on the opening and design to construct the Eden Deployment Centre Conference rooms and studios. This is the replacement scheme for the strategic command and control centre. As a result of changing schemes a budget of £153k has been returned but £54k of this has been transferred to the revenue budget to pay for the aborted former SCC scheme costs. Negotiations are still under way to purchase land at Workington for the West Resilience flood management scheme. This is expected to be complete during the 2016/17 financial year.

Other t A new scheme has been approved during quarter three to allow for the expansion of Automatic Number Plate Recognition (ANPR) cameras in Cumbria. This new scheme is being funded by contributions of £225k from external parties.

Four-Year Capital Strategy

Other than the reported slippage from 2016/17 schemes (which has the effect of moving budget corresponding financing from 2016/17 to 2017/18) there have been no other changes to the budget. Years 2017/18 to 2019/20 are still the same as those approved in February 2016 as part of the budget setting process.
