Our crime database was searched to complete this request using a keyword search. Only crimes that directly mention a drink being identified as the method of spiking in the crime notes have been included.

It is important to note that Crime Statistics reported as at a specific point in time, may change due to re-classification or cancellation of a Crime at a later date.

Police forces in the United Kingdom are routinely required to provide statistics to government bodies and the recording criteria is set nationally. However, the systems used for recording these figures are not generic, nor are the procedures used locally in capturing the data. It should be noted that for these reasons this force's response to your questions should not be used for comparison purposes with any other response you may receive.

Whilst every care has been taken in the retrieval of the information provided, please do not hesitate to contact us for clarification, if you do have any issues or queries relating to this data.
